**Meet by the Fountain at  
the center of campus**

The current economic crisis—including budget cuts and tuition hikes—is largely the result of our government's massive military budget and ongoing wars overseas. On the sixth anniversary of the US invasion of Iraq, join Stony

Brook students and faculty to oppose continued war in Iraq and the escalation of the US war in Afghanistan, and to urge both the federal government and our campus administration to invest in responsible alternatives to war and militarism.

Sponsored by the Social Justice Alliance and the Stony Brook chapter of United University Professions (AFT 2190)
